Hi Karen,
Thought I would just give you an update. I have
put in another order for **Revitaflex**.

Something somewhere is certainly helping.
General improvement over last 3 months. One
short set-back after putting in fencing posts but
recovered after 3 days. Very difficult to bend
down and get socks on in the morning
syndrome!

Paid routine 3 month visit to my [REDACTED]
[professional] last week. He said I was **much
straighter and needed less work doing on me.**

Frederico Saramago [equine trainer] also noticed my seat and **back more supple and deeper** when he
was putting us through our paces.

Last Friday had two very energetic and very good lessons riding.

Saturday **shifted (with help) 3 tons of logs from off the Forest.**

Sunday Jumped two classes and won the Open.

This morning - **back still feels really very good.**

It's been quite a testing week, so thank you for your support.

With Best Wishes, Patrick www.patrickkempe.co.uk
