**On Monday 17th Aug, at 10.30 at night a young Sharpei male dog was thrown over our fence.**

He (Percy) was in the most awful condition, ticks, fleas, but the worst was that his back, from his ears to his waist was [REDACTED] [badly damaged] [see Before pictures]. We cleaned him up, as best you can in the dark, removed countless ticks, fed & watered him. As I didn't know what was wrong with his back, we gave him a duvet & he slept in the porch. I kept him separate from our pack.

The next morning we took him to Pablo & Suzanna who have taken over Thomas Hinz's practice [vets]. Ticks, fleas, bad ears & chronic back were all dealt with & Percy came home. Faced with this problem I used

products from Ruggles & Stopitall range "Ruggle-it". I have been using the shampoo & oil for 7 months [on various other issues]. The oil has [redacted] [helped rectify] Megan's back [dog], stopped Sailor [dog] from eating his back & given Apollo & Rowan [horses] a pretty fly free summer.

So, Percy, now re-homed and very happy, and called Wallace is progressing well. I rubbed the oil on his neck daily & his new Mum Lindsey has kept up the good work. He is now a picture of health, [see After pictures] & much loved, even if he did eat the remote control for the TV.....

The combination of the oil & shampoo makes a very good fly deterrent. I spray it on the dogs beds, the horses fly fringes & the fly rugs. I also put a tiny drop in the washing machine.

Also, I used Ruggle-it shampoo myself. My hair has improved in condition & I have learnt from Karen to avoid all shampoos containing parabens, sodium lauryl sulfate, pegs and synthetic scents. For example Laureth Sulfate is used to clean garage floors. So, check your shampoo. even baby shampoos have it.

During this time I suffered a rather nasty incident where a young guy, homeless & frightened smacked me one when I disturbed him on the patio. I got two black eyes, a bloody nose & a re-designed chin.

After a couple of days resembling Frankenstein, I called Karen. She advised soaking with a mild mixture of the shampoo & water and then applying the oil & resting, aided by a G & T! This I did for two days & the result was amazing. Scaps & cuts went, swelling reduced & the black eyes took their time. The lacerations to my chin, [redacted] [gone nasty!] were gone in a couple of days.

Now, I have found that the repeated use of the oil as a beauty product is fantastic. All those tiny & not so tiny wrinkles that anno domini have forced upon me, are reducing, my skin is soft & has a glow that I really appreciate. With the recession, life is expensive at the moment & we are not all able to spend a few hundred euros, or even pounds on [redacted] so to find a substitute that is a totally pure product, is a bonus. The oil does have a distinctive smell though! [...VERY true...it will not suit some that's for sure & partners need to be tolerant!!!] Some may not like it initially, but when you see the good it does, ....forget the smell...I actually like it now.

I hope that this letter might be of some help to you..I certainly didn't want you to get beaten up to find the benefits of this product so hope that others will benefit from it. [If you live near Malaga, contact Sally as she keeps some extra stocks in for most instances]

PS When you have sorted out all your hair & face issues, then get on to their Probiotics. They have done wonders for Percy & also for Megan [dogs].....watch out David [hubby!].....!!!!!!

Many thanks to Sally Russell for taking the time to write such a detailed feedback. High Res' images available.
