New Dodson & Horrell Equi-Bites

Now Dodson & Horrell Equi-Bites are a treat with a difference! Equi-Bites are fully supplemented with vitamins and minerals making them a healthy treat for horses in work and periods of grass or in work. With the added convenience of feeding straight from your hand Equi-Bites ensure your horse's nutritional vitamins and mineral needs are met.

Equi-Bites are an ideal way of providing your horse or pony with a source of essential micronutrients that are often lacking in a pasture. For horses and ponies that are in light to medium work Equi-Bites take away the need to add supplements to a concentrate.

Stop it all with Stop-it-All

It's the 100% natural, ethical, preservative, a detergent and should be on every horse owners' essential list. That's the verdict of dozens of people who have recently tested the new Stop-it-All oil pasture. This single product just repel flies and mosquitoes, lice, leg and ear mites. It can also be used for sweet itch, tail fever, fly strike and open areas.

"Remarkable doesn't do it justice," said Mrs LC from Avon. "My whole yard (about 200 sq m) now has it for anything from swipes, mud-feet, sweat itch, rain-suck, open wounds, sores. We've got to find something that doesn't work on including softening my 'gardener's hands'." Stop-it-All includes oil from the Neem tree seeds which have a thousand year history of traditional and Ayurvedic use. It contains ingredients that make it resistant to more than three hundred different types of insects, as well as fungi, bacteria, and even viruses.
