Hi Karen,

I always find that people are quick to let you know if there is a problem, but not so quick to let you know when something has gone right.

After receiving the order and reading the notes provided, we dived straight in and bathed our boy [*Dalmatian*], as per the instructions, then added the Semi Salve again as per the instructions. We kept up to the same routine for about 3 - 4 weeks. **My boy stopped itching within the first week of using this product and the rash he has started to go after week 2**

When I noticed the results with my dog, I thought I would try the salve on my [REDACTED] [skin issues] and the results were amazing. It's only on my elbows and knees so I am very lucky, but after **only a week it had practically cleared up. I couldn't believe it.**

I just wanted to let you know the great news!

I will be ordering more of this product within the next few weeks!

Kind Regards
Louise
