**Subject:** I saw your website...

yes i hope this weekend is not cold and wet, so i can shampoo feathers.

feedback for you to use,

Last summer was the first time I used stop it all, on my shire's [REDACTED] [summer itching], which was only managed in previous years, with a **full snoogy hood, a full clip of mane and feathers, and the stuff you buy for scabbies, rubbed in everywhere daily. Even then he managed to rub himself sore.**

[summer itching] [REDACTED]

[REDACTED] now i am using it to keep away mites without having the vet give a mites injection. Will let you know how I get on.

A previous owner will be coming to see him over easter, and does not believe I've managed to win his [REDACTED] [summer itching] battle, when she was with him, it could get so bad all his neck, belly and bottom was red raw, he rubbed away all of his mane and tail, where as **last summer** I managed to **not have one sore**, thanks to stop it all, hope the mites are as easy to stop as the [REDACTED] [summer itching] was!

Sandra Lathrope

Many thanks to **Sandra Lathrope** for taking the time to share this wonderful story.

**Note:** Whilst we are hugely grateful for all the telephone feedbacks we receive on our products, only ones received in writing will be considered for inclusion on this web or as part of any PR...so that readers have peace of mind that we're not making this up!
