Hi Karen

Still find it hard to believe that I am still using the same one product after a couple of years [May 2007!], still finding new uses and most importantly my horse Squirrel [Russian Trakehner] is still happy.

In the past I have **tried various products** (as discussed with you on many occasions when talking about Squirrels history) and found that **one year it works, next year it doesn't** or suddenly start to see unwanted side effects.

I keep getting people come up to me and asking how I manage to have **him looking so good, whilst wearing no rug**. I reckon around about 30-40% of horses in this area are wearing fly rugs of some type by mid March all the way through the summer [Office Note: this is worrying...as without sufficient natural sunlight, Vitamin D issues become a serious concern]. Needless to say I always recommend your products!

Anyway, thought it would be nice to give you a bit of an update and let you know that I am still just as happy using your oil and shampoo now as I was for the first time when it came out!

Best wishes and take care
