Hi,

Have had **great results** with the Ruggle-it oil on his [Skewbald's] [REDACTED] /scabs behind his knees. So far this winter he's only had 1 scab on his off-hind heel, and the scabs behind his knees have **completely gone on one leg - the other has just a little tuft of scab left**. **Great stuff!**

[Office comment: we have suggested using our special shampoo more often (it was only used twice)...as the shampoo really does play a key role for wet-weather related issues including knee scabs; it will not strip out moisture from the skin but WILL encourage the skin to shed the crusty bit as soon as it feels able.

In some cases, if we only use the oil, the body does not seem to work as hard to 'kick it from the system' once and for all as if we use the shampoo and oil as a combined approach.

For very long-standing issues, using the Protexin probiotics can also play an incredibly important role in giving the body an extra helping hand.]

Will need to order some more oil soon as I'm nearly out!
Many thanks
Ms Rolfe, Warwickshire
