To Whom It May Concern

I bought a 17.2 hh mare **three years ago who came with sores and scars on the inside of her thighs, her teats, along her mid-line belly and under her muzzle and her tail was awful.** She has not actually got sweetitch but has a very itchy sensitive skin.

First I tried a **very expensive fly rug** but it was a huge effort to put it on and off on a daily basis and was so heavy and cumbersome for such a big horse.

I have followed **an easy routine with Ruggles & Stopitall** of shampooing her once a week with their special shampoo and oiling the vulnerable areas of underneath, tail, forelock and throat **as and when needed** and spraying her daily with the made up spray.

She is entirely free of rubbing and itching.

She can go out in the field without a rug although I avoid the really itchy times of day and she is happy and well . **I recommend the regime wholeheartedly.**
