Summer Bugs - Go To Hell With Ruggle-It!

Do flies and bugs make your horse or donkey's life a misery? Also driving you insane when out riding or poo-picking the fields? And, are you sick of spending a fortune on products that promise the earth and deliver frustration or at best only very short-term relief?

Happiness is... Ruggle-it. Hell on bugs but heaven for animals and humans!

Said Mrs Gorrel from Hampshire: "Ruggle-it & your probiotics have freed my Hackney from being in a rug 24/7. He now shines, his gait more fluid, he's much more relaxed. With Ruggle-it there may be a mist of bugs around him, but 3 inches above his skin! Used on the itchy dogs too with great results. Miraculous & excellent products".

The clever bits.

- When you mix Ruggle-it's 100% natural blend of various vegetable oils with some of their very special

Richard Davison on Dressage at Bolesworth International

With international dressage set to grace the stage at this year's Equine Bolesworth International Horse Show, June 14-18 - here we talk to dressage consultant and Olympic coach Richard Davison about these exciting new developments.

about international dressage at Bolesworth? With it to be honest it's going to be a very rare time for me personally as not only will I cover the practical organisation of the dressage programme at Bolesworth, but I will also be planning to compete in the Grand Prix class there myself and I will also have two young horses competing there. So I guess I'm looking forward to it in a very mixed way to say the least!

3. Do dressage horses cope well in the winter?
Yes, in extreme areas it is the most beautiful setting with the main arena in an amphitheatre and surrounded by a forest with the castle in the background. Let's see how about the heat though, as far as the horses are concerned the sun-gloves reflect the heat of the sun. The Bar News does everything the sun to make it more and they really benefit. It is absolutely brilliant for the production of British horses. Championship team horses and usually to find ourselves near the best of top-level there we have to go to Europe, so it's great to have this in Britain.

4. The official launch of the new Bolesworth CDI* as Carl Hester's - what is his involvement?**
Carl and I have been on British teams together and have collected on many joint events for more years than I can remember, and he has a long history of involvement in the Bolesworth event. He is the dressage community. He has no hesitation when I talk to him to support by agreeing to do the official launch.

5. Will you be riding at Bolesworth International?
Yes I plan to ride our horse, a 10-year-old gelding, Balthazar. He is owned by Gervaise de Saultain who also owns Balthazar, another

Balthazar Bambi also rode at the Athens Olympics and who won team bronze at the 2003 European Championships.

6. Do you have any ideas which top-level riders will be attending?
Almost all of the top British riders have said they plan to compete at Bolesworth CDI*** as the public can expect to see the likes of our Rio Olympic team members plus incredible Laura Tomlinson, Nicky Attard, Gerry Hughes and many more plus the top riders from Europe.

7. What are your future hopes for dressage at Bolesworth International?
The sky is the limit as far as I know and Bolesworth are concerned!

Get 80% off gate prices if you pre-book your tickets online. General admission tickets are available at a pre-early price of just £22 for the Thursday and Friday, and £20 for Wednesday, Saturday and Sunday. Under-25s can enjoy free admission, while a concession ticket for a 16-year-old is just the price of £40. Tickets can be bought online at www.bolesworthinternational.com
