**Subject:** Thank you

Hello

A while back I had a very long telephone conversation with you about my dog Molly [R&SLtd: 1 yr old Labrador] who was suffering from all kinds of problems, mostly diet related. [R&SLtd: As her 'symptoms' were so extreme including frantic itching, chewing, hair-loss, stress, dry skin, 'wind', sickness & a very telling digging up of their home's organic vegetables from the garden – this told us a lot - we felt it was most likely a combination of diet (**the dreaded RICE!**) as well as the invisible Millennium Mites, stress and an immune system that was gravely confused].

You very kindly spent a **long time** talking to me and explaining things and giving me suggestion for things I could change in order to help Molly. [R&SLtd: Our 'wholistic' suggestion was an **internal** AND **external** approach to help the complete body get back on the right track & to save unnecessary long-term trauma to the young body's cells, let alone an excessive spend!]

- a) Ruggle-it shampoo & salve externally,
- b) plus our 'pure' probiotics, plus
- c) intensive Omega 3 internally along with a
- d) change in diet &
- e) wet/dry foods feeding regime ratios as per our DIET page].

**I did all the things you suggested and in a few weeks Molly is an entirely different dog! Her ears are no longer sore, the patches of missing fur have grown back, most of the barking and foot licking has stopped, the nose licking has stopped as have the terrible "burps" from both ends.**

**The difference is amazing** and I have you to thank for it. We **changed her food** to the JWB fish and vegetable, we **dip her feet in Ruggle-it** after a walk, **bathe any sore bits, regularly give tinned**

[fish/mash/mixer biscuits](#) instead of the dry food [R&SLtd – we referred Mrs B to our DIET page – [www.karenruggles.co.uk/ruggleit\\_pages/ruggleit\\_diet.htm](http://www.karenruggles.co.uk/ruggleit_pages/ruggleit_diet.htm)]; it also makes comments about why feeding 100% complete food is NEVER a good idea.....].

**What a difference,** I simply **do not have the words to express my gratitude.** Thank you so much.

I hope you all have a really fantastic Christmas period and an even better 2013. Your time, effort and advice have **totally changed our lives** and we cannot thank you enough.

Regards

Gill Bennett, and Molly.

X

Hello

I will not change anything to do with Molly's food unless she develops another [redacted], [extreme skin & immune issue] and even then I would not do anything without consulting R&S Ltd first!

Again, I cannot thank you enough for all your help, **Molly is better now than she has been in over a year, SUCH a relief!**

Have a fabulous Christmas

Gill

Many thanks to **Mrs Bennet** for taking the time to write these feedbacks.

**Note:** Whilst we are hugely grateful for all the telephone feedbacks we receive on our products, only ones received in writing will be considered for inclusion on this web or as part of any PR...so that readers have peace of mind that we're not making this up! All quoted testimonials can be viewed at our offices.
