Good morning

I have been using it on my 14.3hh native breed chestnut mare since Saturday [19 July 08 = 5 days]. She is out during the day and in on shavings at night.

I am writing to let you know that I am **absolutely delighted with the results**. I have been struggling with "grease" behind her "knees" (which builds up and becomes hard) for the four years that I have owned her. With daily treatment with your products this has softened and comes away easily when shampooed.

She has not rubbed her mane or tail since Friday!! And her heels don't appear to be itching as there is no fresh blood on her legs in the mornings. The scabs on her legs have softened and come away easily with a shampooing too. Today I made some up into a fly spray as the flies are bad at the moment, went out for a hack, had no bother at all. I feel confident that I can reduce the treatments to once every other day from Saturday [26/7/08] then see where to go from there.

Thank you very much - **what a brilliant product**.

Best Regards, Ann Price

Hello,

Blossom continues to be itch free and the scabs have all come off now, with the gentlest of "rubbing" from me. Before she would not even let me touch the sensitive part of her legs. She also has not rubbed tail or mane still. FAB!!

Thanks again,

Best regards, Ann

Many thanks to **Mrs Price (and Blossom)** for taking the time to write these feedbacks.

Note: Whilst we are hugely grateful for all the telephone feedbacks we receive on our products, only ones received in writing will be considered for inclusion on this web or as part of any PR...so that readers have peace of mind that we're not making this up! All quoted testimonials can be viewed at our offices.
