Subject: Mrs Sharland - Malbec's legs/Mallenders struggle

Hi Karen - I will do my best to also send an email when I am near a computer with my email on it. In the meantime I thought that you may like an update on Malbec's mallenders [behind the knee crusting/skin invasion]..... please see photos - I think that they speak for themselves :-)

Thank you so much for your help - I am totally thrilled at just how quickly things seem to have improved after following your advice [Ruggle-it and Protexin Equine Gut Balancer].

The 'befores' were taken on the 26th October and the 'afters' on 10th November. [On the right x 2 - after images]

With best regards.....Jacqui
